

So I just take the floor to say: I need to write something back to this youngster. Her question:

Why should I be scared to go to school?

I have got to write her and respond in some way, and I don't really know now what to say. But I have challenged my team and I challenge my colleagues. We are in a recess period where we are back in our States. We are talking to people. We are, hopefully, getting ideas from them and listening to them. Let's ask some young people who go to school, let's ask some teachers, let's ask some parents of schoolkids if they have ideas for us that are new or different. Let's ask them whether our political debate about solutions has grown stale and whether there are solutions that we haven't yet contemplated that could respond to the question that this student has raised.

With that, Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. CARPER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BOOKER). Without objection, it is so ordered.

Mr. CARPER. Mr. President, I am standing next to a woman from New Jersey who is our communications director and who handles Delaware and somehow manages to handle New Jersey and raise a family at the same time. She is amazing. We are delighted that we could have the two of you on the floor at the same time. It is a wonderful coincidence.

FIRE GRANTS AND SAFETY ACT

Mr. President, I rise today to highlight something that I believe unites all of us; that is, support for our local firefighters across the country. I don't care if you are in New Jersey or Delaware or Oregon or New Mexico. There is a great affection and appreciation for our firefighters.

Our firefighters throughout America are everyday people who every day do extraordinary things with their lives. They put their lives on the line to protect us. They have to lay down their lives to save ours and the lives of our families.

For that, we owe it to them to make sure that they are fully equipped with the lifesaving protection, with the equipment, the education and training they need to get their job done.

That is why I am very proud to colead the Fire Grants and Safety Act with my colleagues on the Congressional Fire Services Caucus. And one of them would be our chairman—that would be GARY PETERS of Michigan; SUSAN COLLINS of Maine, a longtime supporter of firefighters and a leader in the Congressional Fire Services Cau-

cus, from Alaska. And I was pleased that the Committee on Homeland Security and Governmental Affairs, on which I am privileged to serve and used to be chair, passed this important bill out of committee just earlier this month.

The Fire Grants and Safety Act reauthorizes critical Federal programs that support local fire departments; namely, among those, FEMA's Staffing for Adequate Fire and Emergency Response, also known as the SAFER Grant Program, and the Assistance to Firefighters Grant Program.

These programs are not just incidental. They are vital. They are critical. They are essential to local firefighting departments to help recruit staff, to purchase lifesaving equipment like firetrucks and protective gear, provide fire training and education to current firefighters and also to new firefighters and improve medical services to our communities.

In Delaware, our fire departments rely on these programs to protect our community. In fact, in 2021, and, I think, in 2022, the SAFER Program and the so-called AFG Program provided almost \$3 million in funding to Delaware fire departments. That may not sound like a lot of money in New Jersey or California or some other places; \$3 million is real money in a State the size of Delaware, and it is put to very good use every year.

We know these threats from fire are in our homes, but those threats are in our businesses, and there are wildfires. We know they are not going away. We know they are not going away.

In Alaska last year, 3 million acres burned in a wildfire—a wildfire. Three million acres burned in one wildfire. That is nearly half of the acreage burned in the entire United States of America. Just think about that—one wildfire in Alaska. Just 3 weeks ago, I am told high winds spread a fire in my home State of Delaware that engulfed about a half dozen homes and left some 16 people homeless and caused over \$1 million in damage.

We have to make sure that our firefighters have what they need when they wake up each morning to bravely respond to the calls that come their way. Without action, authorization of both the SAFER and AFG Programs would expire later this year.

As I said at the beginning of my remarks, support for our local firefighters is an issue that brings us together. There are a lot of issues that divide us, as the Presiding Officer knows. There are some issues that unite us, and this is one of those issues.

The Senate voted yesterday to begin consideration of the Fire Grants and Safety Act. That vote passed by 96 to 0. That doesn't happen every day, as the Presiding Officer knows. Let me repeat that: 96 to 0.

And we were happy to see that kind of unanimity, and I think it bodes well for when we return after the recess in the next week or two to take up this legislation.

I look forward to the Senate coming back in 2 weeks. I look forward to finishing the job that we have begun. And we look forward to passing, again, this important legislation.

I strongly encourage our friends over in the House of Representatives to do their part and to send the Fire Grants and Safety Act to the President's desk. We owe that to our first responders.

Mr. President, with that, I thank you for a chance to speak on the floor today. And I wish you and your family a safe recess and see you in 2 weeks.

With that, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.
